

KIRKLAND SENIOR COUNCIL SPECIAL PRESENTATION

Aging in Place Part II

Construction & Remodeling

**PRESENTED BY: PAUL KOCHARHOOK,
A CERTIFIED AGING IN PLACE
SPECIALIST
WITH OVER 30 YEARS IN
CONSTRUCTION**

It is a scientific fact that people who stay living in their own homes live longer, happier, healthier lives that are less expensive than traditional care facilities. Aging in place doesn't need to feel sterile or hospital-like. Comfort, convenience, and stunning design all work together so all may thrive and enjoy life and each other in the home. Not ready for a full-scale remodel? This is ok, learn how to prepare your spaces for future easy modifications when needed. It doesn't all need to be done now. Learn how you can prepare for your future today. Pre-registration is required.
